

## RAISING AWARENESS OF FORESTS AS A NATURAL SOLUTION

The Georgia Forestry Foundation educates Georgians about working forests as a natural solution to absorbing carbon, cleaning streams and rivers, providing wildlife habitat, creating jobs and sustaining communities.

Learn more about the impacts of our programs, focused on bringing together experts and influential organizations to tell our story at scale across the state.

## WHEN WORKING FORESTS SUCCEED, WE ALL BENEFIT

The long-term economic and environmental success of the forestry sector in Georgia depends on increased access to healthy markets for forest products and standing timber and the efficiency of the supply chain. We are focused on research, relationships and engagement that drives real value.

### 1 IDENTIFYING NEW, NON-TIMBER MARKETS FOR FOREST LANDOWNERS

- Developing Carbon101 online learning platform to prepare landowners for participation in the carbon market
- Conducted study to identify structures for payments to landowners for providing clean drinking water

### 2 INCREASING EFFICIENCY OF THE HARVESTING & LOGISTICS SECTOR

- Conducted research with UGA's Warnell School of Forestry & Natural Resources focused on:
  - Log Truck Insurance Rates
  - Interstate Routing
  - Increasing Hauling Weights
- Research will help to inform policy decisions
