ASSOCIATION

LET'S GROW

GROWING OUR FUTURE — TODAY.

Thanks to your investment in the Georgia Forestry Association, we have laid a foundation for strong growth, and we are positioned to continue growing and delivering value to your business every day.

ADVOCACY THROUGH RELATIONSHIP BUILDING

Working forests are an environmental and economic success story, and the best person to tell that story is you — the stewards of our state's greatest resource.

ForestPAC and our FORT program are structured to connect you to political leaders while speaking with one, unified voice.

Learn more at gfagrow.org/forestpac and fort.gfagrow.org.

GROWING AWARENESS AMONG URBAN COMMUNITIES

More than 75 percent of Georgia's population resides in a urban or suburban community, disconnected from the state's 22 million acres of working forests.

Through the Georgia Forestry Foundation, we are growing awareness through innovative technology and strong outreach partners.
